About RAHITECH IT SOLUTION and the Program

RAHITECH is a leading company in professional training and staffing, focused on enhancing employability and upskilling working professionals and students through its training programs. The programs are comprehensive and industry-relevant in Software Engineering, Business Management, Business Analytics, Data Science, Machine Learning, Artificial Intelligence, Cloud Computing, Cyber Security, Digital Marketing, Core Engineering Trainings programs for Mechanical, Electrical, Civil Engineers and many more.

Our focus is solving the low employability challenges by offering 100+ 'Campus to Corporate' and 'Next Step Career' programs to Professionals and Students. Through our training programs, we provide custom-trained talent to multiple organizations based on their landscape requirements. We are one of the very few organizations to provide job assurance to professionals.

"We have been partnering with various industry experts for developing our Job Oriented Training Programs, Curriculum Management, Content Development and Training Delivery for Placement Track Programs since last couple of years. RahiTech has the capability and expertize to offer trained resources to SME and MNC with scale in India and Abroad."

VIKAS RASKAR
Director, Rahitech

RAHITECH's Placement Track Program in Cyber Security is developed in collaboration with various Industry Experts. This program is focused on empowering professionals to fast track careers in Cyber Security. In this 5 Months initiative experiential learning program, learner gets access to 300+ hours of Classroom or online training, practical and live weekend interactive sessions with Mentors and Industry Experts to reinforce their learnings with an industry perspective.

The program is carefully designed to help you become a cross-platform technology security expert. Through a combination of expert lectures, demo sessions and hands-on practical labs along with On Job Training Assignments, you will be able to build solutions that the industry expects of you as a Cyber Security professional.

Basis our Placement Records and Confidence about your placement we offer you a money back policy if you are not placed* for jobs with top employers across Industries in India and abroad.

CANDIDATES & FACULTY SPEAKS

Structure of program is very good for an experienced person like me, going over unnecessary basics was not required. It is a real value add to the whole experience.

- Rameshwar, TCS

My experience with Rahitech has been extremely good. It is the most rigorous course available in IT. I got a lot of exposure though sessions from Industry experts.

- Prachi, QuickHeal

Regular classes and OJT helped to strengthen and enhance my technical and analytical skills. Brainstorming sessions during the trainings helped me to gain innovative ideas. Placement team helped me to get my first job as System Engineer with Zensar.

- Rohan, Zensar

"All our training programs and OJT sessions have been thoughtfully designed to give the learner exposure to handle Real Time Scenarios.

Our programs has helped 1000+ candidates with no IT experience to build a successful career in IT Industry."

- Abhijlt Chavan Technical Head
